

*The BROOKDALE Group*

July 30, 2015

To whom it may concern,

I am writing to recommend Cohn Consulting Corporation for your IT services and support. Over the past few months I have had the pleasure of working with this company and its employees.

I interviewed several computer services firms to replace my IT provider who was not meeting my company's needs. Cohn Consulting had the experience, staff, and professionalism that I was looking for. They evaluated our existing hardware, proposed a plan and implemented the conversion to their company in relatively painless steps.

All of the employees are professional and knowledgeable allowing them to fix problems quickly and efficiently and maintain our network so that we have fewer issues. They are responsive, easy to work with and willing to do a great job for their clients. All users are different in their level of comprehension of computer technology and Cohn understands that and takes it into consideration when dealing with my various users. Cohn Consulting is a professional company with a real commitment to provide excellent technical expertise and good customer service. They deliver on their promises.

With the abilities and dedication of the Cohn Consulting Corporation owners and employees I have no doubts that you will be exceptionally pleased if you partner with them.

Sincerely,

Debbie Noble
